SUMMARY

Final-year Computer Science Engineering student with hands-on project experience spanning Python, Java, and core CS fundamentals (Data Structures and Algorithms, DBMS, Object-Oriented Programming, Operating Systems, Computer Networks), including database-integrated and machine-learning-based applications. Completed structured AI and Machine Learning training at CDAC. Seeking a Full Stack Development or AI/ML internship to build production-level development skills, quickly apply strong fundamentals to new frameworks, and contribute to real-world, data-driven solutions.

EDUCATION

Ghousia Institute of Technology for Women — Bangalore
B.E. in Computer Science & Engineering | CGPA: 8.83 | VTU, 2023–2027

PROJECTS

Network Intrusion Detection System (NIDS)— Major Project

Python, Scapy, Random Forest, NSL-KDD Dataset, Streamlit, MySQL

- Developed a machine-learning-based network intrusion detection system to identify and classify malicious network traffic using the Random Forest algorithm.
- Contributed to the packet-capture module using Scapy to capture live network traffic and parse PCAP files, providing structured data for the classification pipeline.
- Integrated network traffic analysis with attack detection, alert logging, and dashboard visualization to monitor potential security threats.
- Contributed to the Streamlit dashboard for dataset upload, attack visualization, confusion matrix analysis, and security alert monitoring.

Smart Online Attendance System— Mini Project

Python, MySQL, Face Recognition

- Developed a face-recognition-based attendance system to automate student attendance recording and management.
- Integrated application logic with a MySQL database to store and manage attendance records persistently.
- Reduced manual effort by replacing traditional attendance tracking with an automated, database

DocuScan AI – Intelligent Document Scanner

Python, Streamlit, OCR, AI

- **Created a simple user interface for uploading documents and viewing extracted text**
- **Developed a document-scanning application to upload and process documents.**
- Used OCR (Optical Character Recognition) to extract text from documents.

RESEARCH & PUBLICATIONS

- National Conference Paper — "Induction to Graphene," presented at Sai Taranga 2K24 (National Level Conference) 30th May 2024; secured 1st place

CERTIFICATIONS & TRAINING

- Certificate of Publication — Sai Taranga 2K24, Sri Sairam College of Engineering, Bengaluru
- Certificate of Appreciation — 1st Place, National Level Conference "Sai Taranga 24," Dept. of Science & Humanities, Sri Sairam College of Engineering, Bengaluru
- AI & Machine Learning — C-DAC
- Deloitte Data Analytics Virtual Experience, Forage
- Data Analyst Certification, OneRoadmap
- Fundamentals of Databases, Simplilearn
- QuizOff 2026: India's Biggest AI Quiz, Participant, Unstop x CampusCrew

TECHNICAL SKILLS

Technical Skills: Python, Java, C, HTML, CSS, MySQL
AI/ML & Security: Random Forest, Scapy, PCAP, Intrusion Detection
Tools: Git, GitHub, Jupyter, Streamlit
Core CS: DSA, OOP, DBMS, OS, Computer Networks
Soft Skills: Problem-solving & Logical Thinking, Team Collaboration, Team Leadership, Technical Communication
